SUMMARY

Extremely motivated recent college graduate with B.S. in Computer Science looking to expand on my passion for programming. While going through school and taking more courses, I found a love for learning how to build full stack scalable web applications along with building my own 3d graphics projects and games. I am looking to join a great company where I have room to expand on my programming skills and help a company grow and reach its future goals.

PROJECTS

I have finished 2 Udemy tutorials for full-stack web applications:

- Build Ecommerce Website Like Amazon [React & Node & MongoDB]
<https://www.udemy.com/course/build-ecommerce-website-like-amazon-react-node-mongodb/>
- Building Applications with React 17 and ASP.NET Core 6
<https://www.udemy.com/course/building-applications-with-react-and-aspnet-core/>

I have also been working on my own 3d Graphics projects built in WebGL after taking a notoriously challenging course in computer graphics at school.

WEB DEVELOPMENT

Html5 Css3, Sass Bootstrap
JavaScript React Node.js

DATABASE

mySQL mongoDB
SQL Server Azure

PROGRAMMING

C# Python
Java Git, GitHub

GRAPHICS

WebGL

EDUCATION

Bachelor of Science (B.S.): Computer Science

2018-2022

Coastal Carolina University, Conway SC

Relevant Course Work:

CSCI 120 Intro to Web Interface Development, CSCI 225 Intro to Relational Database, CSCI 330 Systems Analysis & Software Engineering, CSCI 350 Organization of Programming Languages, CSCI 356 Operating Systems, CSCI 380 Intro to Analysis of Algorithms, CSCI 425 Database Systems Design, CSCI 440 Introduction to Computer Graphics, and CSCI 490 Software Engineering II.

WORK EXPERIENCE

Intern

June 2021 - September 2021

Boston Realty Advisors, Boston MA

As an intern at Boston Realty Advisors I joined a real estate group looking to increase website traffic to help generate more leads for sales and rentals of properties.

- Added and updated property listing pages on the website through a CMS while providing information about the property in the listing.
- Cleaned database of home owners information in towns and cities around the Boston, Ma area to generate a list of possible leads weekly.
- Listed homeowners in Nantucket, Ma accurately with the owners of each home on the island using land records and research for each property.
- Helped plan the design of the website.
